

 **Constanza**

We are dedicated to creating fresh condiments of the highest quality at a competitive price

OUR HISTORY

From the beginning of our factory we accepted the challenge of making a company that would be able to respond to every consumers need with products that guarantees the highest quality in the kitchen.

We are the first garlic processing industry, both in the country as well as in history, officially making us pioneers. The first production of garlic paste, under the Constanza brand, to be distributed on a national scale, officially began in august 1986.

Since then, Constanza Agroindustrial began developing all products now essential in the kitchen such as garlic paste, seasonings, both liquid and powder, soy sauce and Worcestershire sauce, natural (ambar) and white vinegar, and ground oregano.

One of the company's top priorities is constantly investing in innovation and development, standing out with its latest product line that includes Constanza Mayonnaise.

Our Promise

Constanza MORE Freshness, MORE Flavour.
